

Technical Data Sheet

Power House Chrome Roller Cleaner/Desensitizer

Description

Power House Chrome Roller Cleaner/Desensitizer is applied directly to the metering rollers and all chrome cylinders protecting them from ink piling, oxidation and corrosion. Repetitive use of this product will maintain the metering rollers from bulding up ink and provide optimum dampening efficiency, greatly extending time frames in between having to clean rollers.

.

Dosing & Directions

Shake well before using.

Apply full strength by hand with a clean cloth, sponge, or cotton pad and wipe the entire surface of the chrome roller or cylinder.

Allow 5 - 10 minutes to dry.

Re wipe dry with a clean lint free cloth.

Benefits

Prevents metering roller feedback.

Best cleaner and maintainer of chrome water rollers.

Does not adversely affect the roller surface.

Prevents picture framing with undersized plates when applied to plate cylinders.

Available in 1-quart containers.
