

## Technical Data Sheet

### Power House Roller Deglazer/Cleaner

#### Description

Our Power House Roller Deglazer/Cleaner is an all purpose roller deglazer/cleaner. It is a true multi-purpose cleaner, which removes ink, calcium, oxidation, glaze, paper dust and other roller contaminants. This non-abrasive product will not negatively affect or damage roller surfaces. It will create faster roll ups and remove tinting, striping, toning, and other pressroom issues. Keep away from plate surfaces.

#### Directions

Clean rollers with Applied Chemistries Water Miscible Blanket and Roller wash diluted 25% with water.

Slowly idle rollers and apply a small bead of Power House Roller Deglazer onto the top roller. Let idle for 3 to 5 minutes.

Re-Clean rollers with Applied Chemistries Water Miscible Blanket and Roller wash diluted 25% with water.

#### Benefits

Instantly deep cleans rollers.

Removes calcium, paper dust, ink and all other roller contaminants.

Desensitizes rollers
