

Technical Data Sheet

PRIMO-FPC

Description

The Primo-FPC CLEANER is by far the best plate cleaner and preserver in the market today. It is designed for use on all aluminum plates including conventional and all CtP plates. It is a white milky emulsion which cleans beautifully, gives crisp clean reconditioned surface to the background and does not attack the image area. It also can be buffed dry for storage up to and beyond 1-year.

Multiple Uses

Removes ink and Surface Scratches

Reconditions Plate Surface

Desensitizes

Long Term Storage of up to 1-year

Revitalize previously stored plates

Use by hand with sponge or lint free cotton pad.

Does not separate

Will not blind the plate surface

Ready to use available in quarts, gallons, 5-gallons and 55-gallon drums.
