

Technical Data Sheet

STORAGE GUM

Description

Our Storage Gum is like no other product on the market. It is a special blend of synthetic and natural gums and polymers that provide optimal protection against humidity, oxidation, fingerprints, dust, and scratches during storage, for up to and beyond 1 year. This product is not an asphaltum base.

Multiple Benefits

Works with all metal printing plates.

Will not cause blinding.

Easily removed for quick clean restarts even after long term storage.

Light formulation that is not sticky or tacky.

Very Easy to work with.

NON VOC

BIODEGRADABLE

Directions

Pour light amount onto plate surface and buff the entire plate dry with a cotton pad or cloth. Prior to reuse of plates rinse or wipe with warm water or plate cleaner. In most cases plates can be returned to press without any cleaning.

Ready to use available in quarts, gallons, 5-gallons and 55-gallon drums.
