

## Technical Data Sheet

### Ultimate Plate Cleaner

#### Description

The ULTIMATE PLATE CLEANER is a one of a kind multi-purpose plate cleaner, preserver, finisher, reconditioner, and short term storage solution. It is a clear liquid which can be used on all printing plates via hand or on the fly for high speed webs. It will not negatively affect fountain solutions.

#### Multiple Uses

Removes ink and Surface Scratches

Reconditions Plate Surface

Desensitizes

On-the-Fly plate cleaner

Short Term Storage Finisher

Revitalize previously stored plates

Use by hand or in Automatic Plate Clean Up devices

#### SUPER CONCENTRATE

Our Ultimate Plate Cleaner Concentrate is used as a 1 to 4 concentrate. 1-quart of Concentrate will make 1-gallon of Ready to Use Plate Cleaner. This product has additives and buffers to handle all water conditions including high and low pH, and hard and soft water conditions.

Ready to use available in quarts, gallons, 5-gallons and 55-gallon drums.

Concentrate Available in quarts and gallons.
