

# Potent But Safe Jobz Extreme Degreaser Concentrate

Use our high alkaline *Jobz Extreme Degreaser Concentrate* - even at full strength - on painted surfaces, tires and polished aluminum without harming them.

It comes undiluted so you create the concentration that's right for your tasks.

#### EXAMPLES:

- Measuring 1 part degreaser to 4 parts water ratio (1:4) cleans your greasy engines, heavy equipment and machinery
- Pouring a 1:40 to 1:60 ratio allows for general purpose cleaning
- While a 1:100 ratio is all you need to thoroughly wash your trucks or cars

Choose from one, five, 55 or 250 gallon plastic containers.

- 1 Safe on tires, painted surfaces and polished aluminum
- 2 Concentrated heavy duty degreaser
- 3 Dilute with water for your cleaning task
- 4 Don't allow to dry; rinse at high PSI
