

# Make Your Industrial Floors Shine Again

Our low-foaming *Jobz Garage and Warehouse Floor Cleaner* cleans deeply without redepositing dirt and grime, so your floors sparkle once again.

Dilute with water to apply it by mop or with a floor cleaning machine.

For most applications, measuring 1 part *Jobz Garage and Warehouse Floor Cleaner* to 5 to 10 parts of water is sufficient. Add more water to weaken the solution; less to strengthen it.

Available in one, five, 55 or 250 gallon plastic containers.

- Low foaming
- Mop it on or use a floor cleaning machine
- Dilutes with water
