

Clean, Protect & Restore

# Jobz Fabric and Upholstery Wipes

Sweat, oils, lotions, grease and grime disappear with our *Jobz Fabric and Upholstery Protectant Wipes* that pick up and hold onto filth.

They clean and restore fabric and upholstery while leaving behind a protective barrier against sun and sweat that also guards against fading and cracking.

The citrus-scented wipes have a textured side for removing tough crud and a smooth side for less dirty surfaces. They don't require water and leave no residue behind.

**They are well suited for:**

- Amusement parks
- Golf courses
- Outdoor bars and furniture
- Marine, automotive and RV upholstery

- Clean, restore & protect fabrics and upholstery
- Remove sweat, oils, lotions, grease and grime
- Create protective barrier against sun & sweat
- Coarse and smooth sides
- No water required

The wipes also remove some dried inks, caulks, paint and adhesives, depending on the surface. Try it on an inconspicuous spot before applying it to a large area.

Order a 72-wipe tub or cases of four tubs, today.
